

## **Notice of Fireworks Restrictions & Open Fire Ban**

**EFFECTIVE IMMEDIATELY (06-29-2012 9:00AM)**

### **By ORDER OF THE LONE PEAK FIRE CHIEF AND FIRE MARSHALL**

Due to environmental issues (weather conditions, dry fuel loads, and extremely escalating fire conditions), topographical considerations (mountainous terrain, brush covered areas throughout the city) and public safety concerns (people, structures and property), the following fire restrictions are ordered for the City of Cedar Hills:

- The ignition and discharge of ALL fireworks is prohibited within the following areas of Cedar Hills City: All city areas east of Canyon Road.
- No aerial fireworks are permitted anywhere within city limits.
- Open fires, camp fires and the igniting and burning in fire pits are prohibited. Small portable screened fire enclosures and gas barbecues are permitted at private residences.
- Smoking is not permitted in city parks, campgrounds, open space or vacant lots. Discarding any smoking material, matches and other ignition sources from a vehicle is prohibited.

This order supersedes all other orders and is in effect until the fire chief and fire marshal deem this order can be modified.

This order is enforceable by law, and a violation of which carries penalties and provisions as outlined in the Utah State Law.

Signed this day, Wednesday the 29<sup>th</sup> of June 2012 at 09:00AM
